

Adapter is a part of measuring installation (especially of pipelines), where a sensing element (temperature sensor) is installed by means of threaded connector. Selection of parameters and design depends on measuring installation conditions. It is manufactured in accordance with individual client requirements.

Specification

Material*

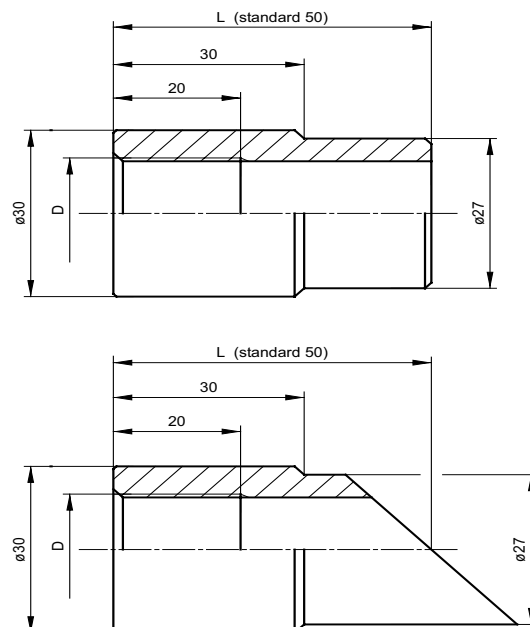

stainless steel 1.4541
carbon steel 15 HM

Dimensions*

thread D: M20x1,5mm, G½
length L [mm]: 50÷200

Type

straight: MP
slanted (45°): MS
